IDLEWILD BAPTIST CHURCH

PROJECT DESCRIPTION

The Idlewild Baptist Church was a new construction project that sits on a 145-acre site in North Tampa. Idlewild is one of Florida's largest worship centers. The new facility includes a sanctuary that holds over 5000 people as well as a voice choir and orchestra section. There is also a welcome center lobby that has a bookstore and café.

The completed system consists of 441,700 SF, which included the installation of cooling towers, water cooled chillers, chilled water air handling and fan coil units. Rooftop air conditioning units and roof mounted exhaust fans were also installed. The system totals 2000 tons.
