NEILSEN MEDIA RESEARCH CENTER

PROJECT DESCRIPTION

Neilsen Media Research, the famous TV ratings company, is the leading provider of television information services in the U.S. and Canada. Customers use Nielsen Media Research's audience research information to buy and sell television time as well as to make program decisions. That information is the currency in all the transactions between buyers and sellers, which adds up to more than \$40 billion in national and local advertising spending each year.

This facility was awarded the NAIOP "Best of the Best – Outstanding Office Building" award.

BCH Mechanical installed the HVAC, plumbing and a full automation system for this 616,026 S. F. Corporate Campus. Our work included: four (4), 250-ton, air-cooled chillers; two (2), 700-ton, water-cooled chillers; two (2), 2,340-gpm, emergency pumps; and eight (8), CRAC units in the data center. The systems also included water storage and back-up generators for redundancy upon failures.

PROJECT TEAM

General Contractor

Hardin Construction

Engineer

Engineering Matrix

Mechanical Contractor

BCH Mechanical

CONSTRUCTION COST: \$15,000,000

COMPLETION DATE: October 2003
