Employing its legacy of modern construction technology, CTLGroup tests concrete creep cylinders for a future super-tall building.

for its work as well as its corporate culture. For more information, visit www.pennoni.com.

Anthony Bartolomeo, P.E., President & CEO
"Now more than ever, societies around the world are relying on the skill sets of engineering professionals to lead the way in ensuring that the health, safety and quality of life desired by all are paramount considerations in decisions made regarding infrastructure investments and renewal. In partnership with our clients, we place top priority on bringing their ambitions to reality in the communities we serve."

50 YEARS**Founded 1966**

Tetra Tech Inc.

3475 East Foothill Boulevard
 Pasadena, CA 91107
 T: 626-351-4664 | tetratech.com
 Contact: Charlie MacPherson

Fifty years ago, four entrepreneurial leaders formed Tetra Tech to provide innovative solutions in the areas of coastal engineering, research and development, geophysics and systems analysis. Since 1966, Tetra Tech has grown into a leading engineering and consulting firm. With 16,000 employees in 400 offices around the world, we provide full life-cycle support in the water, environment, infrastructure, resource management, energy and international development sectors.

Dan L. Batrack, Chairman and CEO
"From our founding in 1966 by four technical leaders, Tetra Tech has always led with science. Our scientists and engineers have

developed innovative solutions to clients' problems. As Tetra Tech has grown and changed over the past 50 years, our reputation for providing superior technical excellence in our projects has remained constant. I think that Tetra Tech's core DNA is empowering entrepreneurial scientists and engineers to do the best technical work for their clients."

50 YEARS**Founded 1966**

TranSystems Corp.

2400 Pershing Road, Suite 400
 Kansas City, MO 64108
 T: 816-329-8700 | transystems.com
 Contact: Richard Morsches, P.E., CEO

For 50 years, TranSystems has provided consulting, engineering and architecture solutions to enhance the movement of people and goods across today's integrated transportation infrastructure. It has grown to nearly 900 professionals in 32 offices throughout the United States, performing a broad range of services to all sectors of the transportation marketplace. As a private company owned 100% by its employees, TranSystems is committed to providing its employees a challenging workplace, where professional development and teamwork are valued and innovation, quality and safety are rewarded.

Richard Morsches, P.E., CEO

"It's an honor to continue the legacy created back in 1966. The entrepreneurial spirit that started this

company five decades ago drives us as we provide clients with innovative transportation solutions. From diverging diamond interchanges and freight rail flyovers to consolidated rental car facilities and transit stations, we excel in creating seamless connections across all transportation modes. We look forward to the next 50 years of creating a culture of quality, safety and innovation serving our employees, clients and communities."

40 YEARS**Founded 1976**

BCH Mechanical Inc.

6354 118th Avenue North
 Largo, FL 33773
 T: 727-546-3561 | bchmechanical.com
 Contact: Daryl Blume, President

Founded in 1976, BCH Mechanical Inc. has grown its talented workforce to more than 600 associates, a team which has built a reputation for excellence in HVAC, plumbing, medical gas, piping, sheet metal, service, 3D CAD and BIM coordination. BCH is also a trusted partner in critical design-build, design assist, energy driven/LEED projects with expertise in hospitals, labs, data

centers and universities. Our service arm, ConServ Building Services, offers commercial HVAC service and maintenance across the Southeast from 11 support offices.

Daryl Blume, President

"After 40 years, we are still passionate about designing and building mechanical systems. We are

dedicated to continual improvement, both as a team and as individuals. We are also committed to doing the right thing, not just for our clients but also for our employees and community. We believe that these values have greatly contributed to our ability to offer more efficient processes, expert craftsmen and a higher-quality product."

40 YEARS**Founded 1976**

Metric Engineering Inc.

13940 Southwest 136 Street, Suite 200
 Miami, FL 33186
 T: 305-235-5098 | metriceng.com
corporatehq@metriceng.com

From humble beginnings as a two-person minority-owned firm, Metric emerged as one of the leading professional civil engineering firms in Florida, 300 strong. Over the past four decades, Metric has successfully completed numerous large, complex transportation projects in the United States and abroad. Metric's portfolio of services includes transportation design, planning, construction engineering and inspection, intelligent transportation systems, emergency management services and environmental engineering. Our clients range from local, county and state governments, including state departments of transportation to international agencies.

Victor M. Benitez, P.E., Chairman & CEO

"It gives me great pride to know that regardless of how successful we become, Metric continues to uphold our

vision of providing all the resources of a large, national firm, while maintaining the attention to detail and personal touch of a small, local company. Personal relationships matter to us, and this has made us into the company we
